

GLE1OL – Learning Strategies

All About Me

1. Take a few minutes to think of words or phrases that describe you. Write these on a piece of paper.
2. On the paper titled My Brand, place the letters in your first name down the left hand side of the page. From your page of words find those words that start with the letters of your name. If you don't have a word that starts with the right letter, use a thesaurus to find one. An example of the first letter in a student's name follows.

Letters of your name	Word starting with that letter that describes you	Why you chose this word
D	Daring	Sometimes I am daring. I think daring people change the world.

3. Using a piece of blank paper, design a title page for this course using your name and the qualities that best describe you. Feel free to incorporate graphics, colour, texture to enhance your title page.

Daring
Alert
Never boring
Inspired
Enjoys graphic design
Life of the party
